Husky dogs are more than just animals to some people. Huskies can help in a lot of different ways.

The native people of the Arctic are called the Inuit. They live in Alaska, Canada and Greenland. They live in very cold climates. The Inuit people use huskies because the dogs are strong and can live in very cold climates, too. They are also very good workers.

Today, a lot of Inuit people live a traditional lifestyle. They use animals for food, transport, and clothes. In the Arctic, there aren't many vegetables or fruit. In fact, in some places, there aren't any supermarkets. The basic diet of the Inuit people is meat and fish. The Inuit hunt seals, polar bears and reindeer, and their huskies help them. Inuit hunters travel with their dogs. They make sledges with animal bones and skin, and teams of huskies pull the sledges. These dogs can pull heavy sledges and go very fast.

Of all the animals in the Arctic, the husky is the Inuit's favourite helper!

FACT! A team of huskies with a sledge can travel over 150 km in one day.

Writing A description of an animal

Wild hippopotamuses live in central Africa. They're big and fat. They have small eyes, small ears and short legs. They also have very big teeth! Adult hippos are usually three to four metres long, and they run very fast!

Hippos often sleep in water during the day because the water is cool. They usually come out of the water at night and eat. They only eat plants. They can eat up to 40 kg of grass in one night, and they sometimes travel up to 10 km to find food. Hippos are very dangerous. Every year they kill hundreds of people!

- 1 Look at the photo. Why do hippos sleep in the water? Read the text and check your answer.

I'm eleven years old and I started San Cristóbal secondary school six months ago. This is a photo of me at school. But I'm not at school now. It's 2.30 in the afternoon here and I'm relaxing at home. School starts at 7.30 in the morning, so I get up at 5.30 and have a shower. Then I have breakfast with my family. My dad starts work in a car factory at 7.00. My mum is a shop assistant. That's when I go to the park with my friends to play football again! At 1.30 I go home and have lunch. My mum cooks really good *arepas* – little corn breads. We eat them with soup or meat. A Welsh school

Hi! My name's Gareth and I'm a student at Penglais Comprehensive School in Aberystwyth, a small town in Wales. In my school we study both English and Welsh. At home, Welsh is our first language so I usually speak Welsh with my parents and grandparents. I like listening to my grandfather tell interesting stories in Welsh.

Our school is great because we've got lots of different clubs.

There's a guitar club on Thursdays. Students can learn how to play the guitar. My friend Isabel goes to this club. She really loves playing music and singing and she's really good. I'm terrible at singing!

We also have a hip-hop group. Students can learn hip-hop music and dance and sometimes they have concerts.

My friend Darren goes to Rugby Club. He can run very fast but I'm really slow! Lots of Welsh people love playing and watching rugby but I think it's boring!

I go to Surf Club every Tuesday after school. We can surf and swim. I love surfing and I can swim fast. Our teacher is an expert surfer. He's brilliant but he shouts a lot!

Writing An email

Hi,

Günter

Please send me an email with information about your school for my school project. Thanks!

Hey Günter,

Here's some info about my school for your project. I go to the Carlton Arts School in London, England. It's got pupils from 11 to 18 years old. It's a small school but there are about 40 teachers. The school day starts at 9 o'clock and finishes at 3.30 pm. We wear a grey and white uniform $\stackrel{\smile}{\sim}$.

My school's unusual. It's for students who are good at acting, dancing and music. In my year, we all study ten 'normal' subjects, like Maths and History, but we also choose Drama or Dance. I do Drama and I have a Drama lesson every day . We learn a lot about acting, but we also write plays and design costumes (like the ones in the photo). The school's got a fantastic theatre!

Write back if you need more info. Bye for now!!

1 Work with a partner. Look at the sentences and communicate the information.

- 1 'I'm OK!' (Use your hands.)
- 2 'That's really funny!' (Use a sound.)
- 3 'Stop!' (Draw an image.)

We often communicate with images. Images send us a message. Some images inform us, some tell us to do something, and others simply entertain us. Let's look at the images around us in our towns and cities.

A INFORMATIVE IMAGES

A lot of images in towns and cities inform us about things, for example maps, road signs, shop logos and posters. These images are usually simple and give us very clear messages.

B PERSUASIVE IMAGES

These images tell us to do something. You can see lots of these images in advertisements in the street. They usually want to sell us something, for example a drink, clothes or a ticket to the cinema.

C RECREATIONAL IMAGES

These images entertain us, for example images from films, comics or even street art and graffiti. These images attract our attention because they are beautiful, strange or surprising. They make the town or city more interesting or attractive.

In Kazakhstan, people love listening to all kinds of music. Traditional folk music is very popular. The national musical instrument is the dombra. People play the dombra and sing songs or poems from the past.

Do young people like traditional music?

Yes, they do. Young people have *dombra* parties in streets and parks in many cities in Kazakhstan. Now, there are even dombra parties in Europe! Some young Kazakhs train to become akyns. Akyns are very good folk singers and poets. There are some famous akyns in Kazakhstan today. Of course, professional akyns practise every day.

What are their songs and poems about?

They are sometimes stories about family and animals, the land and mountains. Sometimes they are about ideas and feelings. But a good akyn can sing about anything!

Where can you see akyns?

Reading A biography

1 You are going to study part of a story by the British writer, Arthur Conan Doyle. Read the text about his life. Which famous characters did he write about? Do you know anything more about them?

Reading A story

In this text Doctor Watson is telling the story. Read the first part of the text quickly (paragraphs A–D). What kind of story is it?

a love story a travel diary a mystery story a comedy a science fiction story

Arthur Conan Dovle was born in 1859 in Edinburgh, Scotland. At university he studied to become a doctor, and he also started writing short stories. He was soon more successful as a writer than as a doctor. In 1886 he wrote his first story about a detective and his friend. These were Dovle's most famous characters: Sherlock Holmes and Doctor Watson. Doyle wrote 56 stories about them and they were extremely popular. Doyle died in England in 1930. But today Holmes and Watson are still appearing in films, novels and TV programmes.

Get Reading

The first time you read a text, read it quickly, without stopping. Don't worry if there are parts you don't understand or words you don't know. Keep reading! Try to get a general idea of what the text is about.

- A When I got to the top of the hill the sun was already going down. The hillsides below me were goldengreen on one side and grey shadow on the other. There was no sound and nothing moved on the moor.* One great grey bird flew over my head. He and I seemed to be the only living things between the blue sky and the empty land. But down below me there was a circle of old stone huts.* One of these still had enough roof to keep a person dry when the weather was bad. My heart jumped as I saw it. This must be the stranger's hiding place I could now find out his secret!
- B A little path through the rocks took me down to the door. Everything was quiet. The man might be waiting inside, or he might be outside on the moor. I closed my hand on the <u>gun</u> in my pocket, walked quickly to the door and looked in. The hut was empty.
- But I was right. This was the place where the man lived. Some <u>blankets</u> in a corner showed me where he slept. I could see the ashes of a fire in the old fireplace. Next to it there were some cooking <u>pots</u> and a bucket of water. Empty tins* were lying on the floor, so I knew that someone had used the place for several days. An old table stood in the middle of the hut, and on this I found a small bag. Inside there was some bread, some tins of meat and two tins of fruit.
- D Then I noticed a piece of paper under the bag. I picked it up and read it. It said, 'Dr Watson has gone to Coombe Tracey.' This secret man was collecting information about me! Who was he? What was he doing here? Was he my enemy? I knew I could not leave the hut until I had answers to these questions.

Adapted from The Hound of the Baskervilles by Arthur Conan Doyle

*moor батпақ – болото *hut лашық – лачуга *tin қаңылтыр құты – жестяная банка

- 2 Answer the questions.
 - 1 Who or what was Doctor Watson looking for?
 - 2 Did he find anything important in the hut?
- 3 What do you think happens next in the story? Work with a partner. Ask and answer Watson's questions.
 - 1 Who is the 'secret man'?
 - 2 What is he doing on the moor?
 - 3 Is he Watson's enemy?

- E Outside the sun was getting low. In the west the sky was brilliant with red and gold, and these colours were shining from pools of water on the moor. I could see the two towers of Baskerville Hall, and far away a curl of smoke came from the village of Grimpen. All was quiet and lovely in the golden evening light. But I could not enjoy this beauty. I was thinking only of my meeting with the <u>stranger</u>. Every minute was bringing it closer. Cold and alone, I sat in the dark corner of the hut and waited for the man to come.
- F And then finally I heard him. Far away came the clink of a boot hitting a stone. Then another and yet another, slowly coming nearer and nearer. I pushed myself back into the darkest corner and took out the <u>gun</u> from my pocket. I knew I must not show myself until I could see this man. For a few moments there was no sound and I knew he had stopped. Then once more the <u>footsteps</u> came towards me and a shadow fell across the opening of the hut.
- G 'It's a lovely evening, my dear Watson,' said a well-known voice. 'I really think you will be more comfortable out here than inside.'
- 5 Read both parts of the text again. Then put these sentences about Doctor Watson in the correct order.
 - a) He saw a small building.

FANTASY OR REALITY?

Film director Peter Jackson made the three *Lord of the Rings* films (from JRR Tolkien's books) in New Zealand. It was an enormous project which took eighteen months to film. Jackson had a fantastic team to design and build the towns from Tolkien's descriptions, but when filming finished they didn't keep them. The only one they kept was Hobbiton, so we went to see that. It was a village for very small people, with houses inside a hill.

Another place in the book was Minas Tirith, an ancient city on a hill with a castle at the top. It had streets on seven levels, with walls to protect the city. The model for this fantasy city was a real place: Mont Saint-Michel, a tiny rocky island on the coast of north-west France. Mont Saint-Michel first had a church in the 8th century, then houses for fishermen and farmers. Now there are also shops, restaurants, hotels and four museums. The streets are tiny and there are 900 steps up to St Michael's church at the top.

FACT! Mont Saint-Michel is a UNESCO world heritage site. About 3.2 million people visit it every year, but only about 50 live there.

Today we're looking at unusual journeys to school Twelve-year-old David Wong tells us about his journey to school in Hong Kong.

I live in Mong Kok in Kowloon, Hong Kong. A lot of people live in Mong Kok and everybody uses public transport. In the rush hour, it's very busy. My school's a long way away, on the other side of the city. I travel on all the city's public transport to get to school. I don't take any money because I've got an Octopus Card. It's called the Octopus Card because an octopus has eight legs and eight is a lucky number in China.

Yesterday was a normal school day. I went on foot from my flat to the underground station in Mong Kok. Then I took the ferry across Victoria Harbour. I arrived on the island side, and I took the tram. I like travelling by tram best because you get a great view from the top! Finally, I went on foot up the escalator to my school in the Mid-Levels. Some students go by bus, but the escalator is more fun. The whole journey was only 45 minutes!

Hi Nicole

Here's some info about my town for your visit next term.

Tavistock is a small town with a population of about 11,000. It's in a place in England called Devon.

It has an interesting history. Sir Francis Drake was from Tavistock. He was a famous English explorer in the 16th century. He was also the second person to sail all the way around the world.

There are a lot of historical buildings in Tavistock and a museum, too. In May, there's a music and arts festival, so we can go to some free concerts. We can also visit Dartmoor National Park! It's beautiful. There are lots of shops, parks and sports facilities, too. See you in May!

THE **HIGHLAND** GAMES

Are you bored with modern sports? Then come to the Highland Games in Scotland and discover traditional Scottish sports. The Games celebrate Scottish culture, and also include Scottish dance competitions and typical local food.

From May to September there are Highland Games in towns and villages across Scotland. Men, women and children travel from all over the world to watch.

Nobody knows when the Games started. But in the 11th century, King Malcolm III of Scotland held a race to find a fast runner to take his messages. Maybe this was the first Highland Games. Some historians say that the Victorians invented The Games in the 19th century.

Competitors at the Games do a lot of different events. There are special 'heavy' athletic sports. One famous event is the *caber toss*. A caber is a heavy wooden pole. Contestants throw the caber. The winners are very strong! Other events are the stone put - contestants throw a big stone - and the hammer throw - they throw a metal ball on a long stick. Another popular event is the *Tug o' war*. In this event, rival teams pull a rope in opposite directions!

Local Scottish athletes wear traditional tartan kilts similar to skirts. Tartan is a colourful material. In the past, Scottish people wore tartan to show which family they were from.

Nowadays, people from all round the world compete in the events. So why don't you come too and experience the magic of the Highland Games?

FACT! There are Highland Games all round the world. The first Highland Games in the USA took place in New York in 1836.

2 2.25 Read the text. Check your ideas in Exercise 1.

Outdoor sports and activities

We often do sports and activities at a gym or a sports centre, but sometimes we do them outdoors, in a natural environment. Outdoor sports and activities are sometimes competitive. This means that we do them in a race or a competition because we want to win a prize. Recreational means that we do them because they are fun.

We usually do outdoor sports and activities in three different places: on land, in the air or in the water. Horse riding, mountain biking and climbing are land activities. We often go climbing on mountains or large rocks. Bungee jumping, parachuting and paragliding are air activities. We jump from a high place like a bridge when we do bungee jumping. Canoeing, waterskiing and windsurfing are water activities. We go canoeing in rivers and waterskiing and windsurfing in the sea.

People probably know them best for boxing. Kazakhstani boxers are some of the best boxers in the world. Kazakhstan often wins Olympic gold medals for boxing.

The 2016 Summer Olympics in Rio were Kazakhstan's best ever Olympics. 207 countries sent over 11,000 athletes to compete in 306 events. 78 countries won medals, and Kazakhstan finished twenty-second in the medals table. What a fantastic result!

Which medals did they win? 104 Kazakhstani athletes went to the Games and they left with 17 medals. Three were gold! So who won these medals? The Kazakhstani swimmer, Dmitriy Balandin, won a gold medal, and there were also golds in boxing and weightlifting. The women did extremely well. Two silver medals were in women's weightlifting and wrestling.

What will happen at future Olympic Games? It will be very interesting to see. But everyone feels sure that Kazakhstanis will not be disappointed.

ADVENTURE!

I'm going to go on an adventure holiday in Scotland for a week this summer. I'm going to stay in a cabin in the Scottish countryside. There are about 50 different activities: from mountain biking to kayaking in Scottish rivers. My favourite activity is the zip wire. I'm not going to take summer clothes because it's usually quite cold in Scotland, but I don't mind! I can't wait.

This summer my family and I are going to explore Thailand. We're going to stay in a tree house in the jungle for three days, where we're going to ride elephants. Then we're going to stay in a hotel near the beach for a week. I'm going to swim every day, and we're all going to eat really nice food. Fantastic!

My friends and I are going to spend two weeks watching wildlife in Patagonia this summer.

We're going to stay in hostels because it's really cheap. Patagonia is a beautiful place in the south of Argentina, with lots of interesting animals. There are penguins, sea lions, even killer whales. I'm going to take my camera, of course, but we aren't going to take our phones. When I get back, my dad's going to build a web page and I'm going to put the best photos on it.

The 'singing dunes' are about 180 kilometres from Almaty. I didn't understand how a desert can 'sing' until I stood on the sand and listened to the sound that it makes. Incredible!

Exploring the steppe

We stayed with a local family in yurts for three nights. They took us on their horses to explore the grasslands, or 'steppe'. We saw lots of rabbits! We also met our host family's eagles. They use them to hunt rabbits and foxes. In the evening, we ate with the family and they played traditional music for us. They were so kind that we didn't want to leave!

White water rafting on the Chilik river

Rafting on the Chilik river in a big rubber boat was cool. We got very wet and at times I thought we were all going to fall in the river! It's quite scary when the water's flowing fast.

Mountain biking in the mountains and canyons

This was the best part of our holiday for me. We travelled by helicopter to North Inylchek Base Camp (4,000 metres). When we arrived, we had lunch and took photos of Kazakhstan's highest mountain - Khan Tengri. Then it was time to go down the mountain again - this time we did it by bike! After that, we spent four days cycling along some fantastic canyons. The photo is of my new friend Yerden at Temirlik Canyon. I was really tired at the end, but I really enjoyed it.

It's the end of my holiday in Kazakhstan. I had an amazing time! Here are some of my adventures.

BUDVA

Where is it?

Budva is a city on the Adriatic Coast in Montenegro in south-eastern Europe. Not many people know it but it's very popular with millionaires! Budva has a long history - it's 3,500 years old. It was a small fishing village 50 years ago, but now rich people from Italy, Austria and Russia have houses in the town.

A historical town

It's very old and beautiful. There's an Old Town. Some people think this part of Budva was an island in the past. Now it's part of the town. The Venetians (people from Venice) ruled the town from 1420 to 1797 and they built walls to defend the town from their enemies. These walls are now popular with tourists.

Music

It's also a great place for music and concerts. A lot of famous musicians go to play concerts there – the Rolling Stones played in 2007. 35,000 people came to see them and the town has only got 16,000 residents! Madonna and David Guetta also played in Budva.

Relax!

There are lots of local beaches. Mogren Beach is very popular and is only 500 metres from the Old Town. The town's got a Mediterranean climate so it's usually warm and sunny.

How to get there

You can fly to Tivat or Podgorica airport or come by car along the Adriatic Highway.

Prepare

2 Work in groups of three or four. Choose a town or city. Use the Internet, books or magazines to find information about it. Use the questions in Exercise 1 to help you.

Development of this publication has made use of the Cambridge English Corpus (CEC). The CEC is a computer database of contemporary spoken and written English, which currently stands at over one billion words. It includes British English, American English and other varieties of English. It also includes the Cambridge Learner Corpus, developed in collaboration with the University of Cambridge ESOL Examinations. Cambridge University Press has built up the CEC to provide evidence about language use that helps to produce better language teaching materials.
